59 WEST MAIN STREET
GREENVILLE, PA 16125
PHONE: 724-588-7531 FAX: 724-588-5914**

COVID-19 numbers have been steadily increasing in our communities. In addition to allergy patients we also serve a large number of immune deficient patients. Those particular patients have been more severely affected by the recent pandemic. Out of consideration for those who may be more at risk for contracting COVID-19, we request that when you enter the building for appointments or allergy injections that you wear a mask.

This may not be a desirable action for some patients but I ask that you please help us protect vulnerable groups.

At this time, I cannot require you to follow the mask request. If you decide it is not in your best interest, I understand and respect your position. However, we will not be able to provide your services if you do not wish to mask prior to entering the office.

I thank you in advance for your consideration in this matter during these most challenging times.

Francisco Cano, M.D.
